Adding EducationRootCa for Zscaler SSL inspection (Ubuntu)

From a Windows Server:

1. Export the educationRootCa from the server
2. Make sure it's named educationRootCa.crt
3. Copy educationRootCa.crt to the ubuntu server:

```
“ scp .\educationRootCA.crt username@hostname:/home/username/
```

From the Ubuntu Server

1. Install ca-certificates

```
“ sudo apt-get install -y ca-certificates
```

2. Create the extra certs dir

```
“ sudo mkdir /usr/local/share/ca-certificates/extra
```

3. Copy to cert to the dir

```
“ sudo cp educationRootCa.crt /usr/local/share/ca-certificates/extra/
```

4. Update the certificate store

```
sudo update-ca-certificates
```
