

Backup Failed: Agent failed to process method {ReFs.SetFileIntegrity}.

Error

When running a backup job you receive the following error:

Processing [SERVER NAME] Error: Incorrect function. Agent failed to process method {ReFs.SetFileIntegrity}.

Fix

Run this to disable fast clone:

```
“ New-ItemProperty -Path 'HKLM:\SOFTWARE\Veeam\Veeam Backup and Replication\' -Name 'UseCifsVirtualSynthetic' -Value '0' -PropertyType DWORD - Force
```

To undo fix:

```
“ Remove-ItemProperty -Path "HKLM:\SOFTWARE\Veeam\Veeam Backup and Replication\" -Name "UseCifsVirtualSynthetic"
```
